This list gives us a groundwork of volunteers to start with ~ we always send notifications first asking if you are available for the event. What would make attending meetings more appealing to you?

Do you have any suggestions or comments?

*Studies show that parental involvement in a child's education is one of the most important factors in raising student self-esteem and academic achievement. Moreover, most experts agree that parental involvement should go beyond attendance at teacher conferences and open house.

We realize, however, that each of our families is unique – with its own priorities, needs, talents, and time constraints -- and so we try to provide as many different kinds of opportunities for parental involvement as possible.

Thank you for making a difference at Metamora Grade School!
